

TP(E) Series 100

End-of-Life Information

Grundfos TP and TPE Series 100 pumps must be disposed of according to local regulations by using a public or private waste collection service. If this is not possible, contact the nearest Grundfos company or service workshop.

This information is only related to the pump part – for end-of-life information about the motor, please look up the motor itself.

Safety Risk

- Safety related to materials used:

There is no risk to people during the disassembly process posed by the materials used in the product.

- Safety related to handling the product:

Care should be taken when handling the pump due to the weight.

Disassembly of the Product

The main materials of the components are:

- cast iron
- composite PES/PP 30 % GF
- stainless steel.

and can therefore be recycled to a large extent – depending on the national possibilities for recycling.

Pos. no.	Designation	Material	Special disassembly considerations
1	Pump housing	Cast iron/ stainless steel	
2	Impeller	Composite PES/PP 30 % GF	The impeller is press-fitted on the shaft
3	Shaft	Stainless steel	
4	Coupling	Cast iron	
5	Pump head	Cast iron/ stainless steel	
Additional materials:		Screws, gaskets, shaft seal etc.: Various materials less than 5 % of weight.
